- **Database :** MySQL, MongoDB
- **Others :** Git , GitHub, VS code

SOFT SKILLS

Time Management || Problem-solving || Results-Driven

EXPERIENCE

SkillQode Institute - Internship   **July-september 2024**

   I completed a 3-month internship at SkillQode as a Full Stack Developer, working on front-end and back-end development for real-world projects. I built responsive web applications, developed RESTful APIs, and handled user authentication.

Project:

E-Commerce (React Js)

- Created a responsive e-commerce website using HTML5, CSS, JavaScript, Tailwind CSS, and React.js .
- Implemented product listings, shopping cart, wishlist, and secure checkout
- Gained practical experience in frontend development and web application design.

Blog App (Node Js)

- Develop a blog application with user authentication and OTP verification using Nodemailer, React.js .
- Built a blog platform with a Node.js backend, featuring OTP - based authentication and dynamic, responsive EJS frontend and Node.js, Express.js and full-stack fuctionality

E-Commerce (Node js)

- An e-commerce web application in Node.js features user authentication, allowing users to securely sign up, log in, and manage their profiles.
- It includes product for admins to add, update, delete products and a shoping cart system for users to manage their items.
